Price: £25.00

Description

This stylish accessory is designed to keep a chill from your neck as well as to look fabulous!

It is woven using a lucet tool and then embellished with a crocheted flower brooch. The brooch is detachable so you can switch it up with your style, depending on your mood or to colour coordinate with your outfit. Additional brooches can be found in the brooches section of this website, or you can feel free to add your own. You can also wear it without any brooch attached if that works best for you.

There is room on the neck warmer to add a second brooch too and this looks really effective!

Why not mix and match and create many different looks with just a few of these statement garments?
